DETAILED ACTION

1. Claims 1-6 were examined.

Section I: Final Rejection

Claim Rejections - 35 USC § 101

2. Claim 6 is directed to software-based wired design application. This claimed subject matter lacks a practical application of a judicial exception (law of nature, abstract idea, naturally occurring article/phenomenon) since it fails to produce a useful, concrete and tangible result.

Specifically, the claimed subject matter does not produce a useful, concrete, tangible result because the claimed subject matter fails to produce a result that is limited to having real world value rather than a result that may be interpreted to be abstract in nature as, for example, a thought, a computation, or manipulated data. More specifically, the claimed subject matter merely states process of predicting design shape. This produced result remains in the abstract and, thus, fails to achieve the required status of having real world value.

Section I: Allowance

3. Claims 1-5 are allowed.
4. As allowable subject matter has been indicated, applicants' reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Section III: Response to Arguments

IDS

5. The Office acknowledges applicants' response.

101

6. Applicants are thanked for addressing this issue; however, although applicants have amended claims 1-5 to obviate this rejection, claim 6 remains an issue as set forth above.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicants' disclosure:

- US Patent 6,813,749: teaches a finite model of a printed wiring board is produced based on the thermo-mechanical environment parameters and user-defined parameters e.g. solder-type used in board.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 2121

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
